The mission of Sky's the Limit is to develop and shape youth into young adults, by giving them the experience to work as teams and learn how to be leaders. The collaboration between the City of Menlo Park and YCS (Youth Community Services) gives youth the opportunity to reach their full academic and social potential. Youth will have the chance to engage in a variety of activities. For example: Discussion Groups, Community Service, Field Trips and Sports. By developing these skills youth will learn how to work hard in order to obtain what they desire in their adult lives.
