

Washing Machine Rebate Program

The Menlo Park Municipal Water District (MPMWD) offers rebates on qualifying washing machines.

Program Background

More than 20% of all water consumed in a home is used in the washing machine. Receive a \$125 to \$200 refund with the purchase of a new energy and water efficient washing machine. Continue to save money each month on your water and energy bills!

To qualify for the \$125 to \$200 rebate:

- The Menlo Park Municipal Water District must serve your residence. Three major water districts serve the City of Menlo Park. Please be certain that your home is within this water district. Water district information is available on the following website: www.menlopark.org/departments/pwk/waterprovide.pdf.
- The clothes washer must be purchased new at a retail store price. **Please be advised that starting July 1, 2007, washers using silver ion technology will **NOT** qualify for this rebate.
- The washing machine must be listed at the following website:
www.waterenergysavings.com
- The amount of the rebate is based on a tiered list of qualifying models which are at the following amounts:
Level 1: \$125
Level 2: \$200

A copy of this rating system can be seen at the following website:
www.waterenergysavings.com

- You must submit a rebate application. Applications can be filled out online at www.waterenergysavings.com or call the City of Menlo Park Environmental Program at 330-6763 to request a paper application.

The number of rebates is limited. Only one rebate will be issued per household.
