Stanford University Law School 1968

Private Law Practice 1969 – 1989

Worker's Compensation Judge 1989-1994

Presiding Judge Workers' Compensation Appeals Board 1994 – 2003

The City needs council members who can bridge the differences among people with conflicting perspectives: As a judge, I have years of experience bringing opposing parties together and finding resolutions to difficult situations.

The City needs dedicated community leaders: Because I am retired, I have the time and energy to devote to governing the City with an open mind and a good heart.

The City needs sustainable prosperity: The boom times ended, and now we must approach spending with caution - but with an eye on the true values that inspired us to choose Menlo Park as our home.

I believe deeply in giving to the community in which I live. Menlo Park has been my home since 1991 and I have benefited from its beauty and its tranquility.

The current Council majority has lost its way. I will serve all the residents: Belle Haven to Sharon Heights, children to seniors. I will honor the city's diversity. Please vote for me on November 2nd.
