Additional recommended preventive measures:

- Those over the age of 60 and those with co-morbid conditions (other underlying health conditions) should avoid gatherings to the extent possible;

- Social distancing – stay at least six (6) feet away from all other people – where possible.
- Wash your hands often with soap and water for at least 20 seconds especially after you have been in a public place or after blowing your nose, coughing or sneezing. If soap and water are not readily available, use a hand sanitizer that contains at least 60 percent (60%) alcohol. Cover all surfaces of your hands and rub them together until they feel dry.
- Use a barrier, such as a paper towel or tissue, to touch commonly touched surfaces such as door handles or elevator buttons

- Cover your mouth and nose with a tissue when you cough or sneeze, and then throw the used tissue in the trash. If tissue is available, use the inside of your elbow. Immediately follow proper hand hygiene.
