Description
Customer thinks he needs a new booster pump

2/6/20 - Found that the boiler circulation pump was ooc I let the customer know that I had to go pick a replacement up at the shop.
Once I replaced the pump checked for leaks boiler would not fire.
After troubleshooting I found the igniter was in bad shape and replacement was required. Steve young is aware of this and said for me to get the boiler going what ever it takes. I replaced the igniter and was able to get the boiler backup and operating, system temperature was working its way up. Boiler left online as required.
