C. Payments shall be monthly for the invoice amount or such other amount as approved by CITY. As each payment is due, the FIRST PARTY shall submit a statement describing the services performed to CITY. This statement shall include, at a minimum, the project title, agreement number, the title(s) of personnel performing work, hours spent, payment rate, and a listing of all reimbursable costs. In the event CITY is not notified of any such change in stock ownership or interest, then upon knowledge of same, it shall be deemed that CITY has terminated this agreement.

16. TERMINATION OF AGREEMENT

A. CITY may give thirty (30) days written notice to FIRST PARTY, terminating this agreement in whole or in part at any time, either for CITY’s convenience or because of the failure of FIRST PARTY to fulfill its contractual obligations or because of FIRST PARTY’s change of its assigned personnel on the project without prior CITY approval. Upon receipt of such notice, FIRST PARTY shall:
   1. Immediately discontinue all services affected (unless the notice directs otherwise); and
   2. Deliver to the CITY all data, drawings, specifications, reports, estimates, summaries, and such other information and materials as may have been accumulated or produced by FIRST PARTY in performing work under this agreement, whether completed or in process.

B. If termination is for the convenience of CITY, an equitable adjustment in the contract price shall be made, but no amount shall be allowed for anticipated profit on unperformed services.

C. If the termination is due to the failure of FIRST PARTY to fulfill its agreement, CITY may take over the work and prosecute the same to completion by agreement or otherwise. In such case, FIRST PARTY shall be liable to CITY for any reasonable additional cost occasioned to the CITY thereby.

D. If, after notice of termination for failure to fulfill agreement obligations, it is determined that FIRST PARTY had not so failed, the termination shall be deemed to have been effected for the convenience of the CITY. In such event, adjustment in the contract price shall be made as provided in Paragraph B of this Section.

E. The rights and remedies of the CITY provided in this Section are in addition to any other rights and remedies provided by law or under this agreement.

F. Subject to the foregoing provisions, the CITY shall pay FIRST PARTY for services performed and expenses incurred through the termination date.
17. INSPECTION OF WORK

19. BREACH OF AGREEMENT

   A. This agreement is governed by applicable federal and state statutes and regulations. Any material deviation by FIRST PARTY for any reason from the requirements thereof, or from any other provision of this agreement, shall constitute a breach of this agreement and may be cause for termination at the election of the CITY.
   
   B. The CITY reserves the right to waive any and all breaches of this agreement, and any such waiver shall not be deemed a waiver of any previous or subsequent breaches. In the event the CITY chooses to waive a particular breach of this agreement, it may condition same on payment by FIRST PARTY of actual damages occasioned by such breach of agreement.

20. SEVERABILITY

   The provisions of this agreement are severable. If any portion of this agreement is held invalid by a court of competent jurisdiction, the remainder of the agreement shall remain in full force and effect unless amended or modified by the mutual consent of the parties.

STAFF REPORT

City Council
Meeting Date: 6/9/2020
Staff Report Number: 20-116-CC

Consent Calendar: Authorize the city manager to execute master agreements with consulting firms for on-call architectural, landscape architectural, civil engineering, construction inspection, municipal engineering, and materials testing services

Recommendation
Staff recommends that the City Council authorize the city manager to execute three-year master agreements with multiple consulting firms for on-call architectural, landscape architectural, civil engineering, construction inspection, municipal engineering, and materials testing services with options to extend the agreements on a yearly basis for up to two additional years.

Policy Issues
The proposed action is consistent with the City’s purchasing policies. Use of multiyear master agreements assists the timely delivery of capital improvement projects and programs/services to maintain the City’s infrastructure. It also serves as a risk management tool to quickly address emergencies, shifting priorities and staff vacancies. The authorization of these master agreements does not award projects to any of the selected firms; it establishes a pool of resources from which to draw as project needs are identified in the future.

Background
The public works department is responsible for planning, building and maintaining the City’s infrastructure. The department is comprised of engineering, maintenance, and transportation divisions managing projects per the City’s capital improvement program and development service needs. Such projects may include master planning, development permit review, utility upgrades, building and park maintenance, and street and sidewalk repairs. Currently, public works projects are overseen staff engineers and inspectors, and supplemented with contract consulting services. The role of City surveyor is also currently provided through a master agreement.

Over the years, the City Council has authorized the city manager to execute master agreements with consulting firms to augment staffing resources experiencing higher demand. Master agreements have been established by the City for short-term specialized services such as engineering, surveying, transportation, inspection and materials testing. The City’s current master agreements for engineering and surveying services were last authorized by the City Council in 2012, and expire at the end of fiscal year 2019-20. The last set of transportation master agreements was authorized by the City Council November 13, 2018, and may be extended through fiscal year 2024-25, so is not included in this authorization. On August 20, 2019, the City Council authorized the city manager to execute three-year master agreements for on-call architectural design, cost estimating and mechanical, electrical and plumbing (MEP) design services. While
cost estimating and MEP on-calls are not included in this authorization, staff recognized the need to expand the City’s architectural on-call support after further evaluation of current and projected workloads.

Analysis

Master agreements are an efficient tool for providing technical staff support and shorten the time needed to identify qualified firms while adhering to City purchasing policies. This enables the City to more quickly respond to needs by utilizing these consulting firms’ services on an as-needed basis for a specific activity. These services are temporary, and obtained only for the length of time needed to complete the tasks.

Master agreements that involve on-call professional services only provide a list of qualified and vetted consulting firms. Once a master agreement is in place with the listed firms, staff interacts with these firms on an as-needed basis to find the most appropriate level of expertise and knowledge to carry out a specific task. Once a specific firm from the list is identified for the temporary work, the City solicits cost information about the task(s) requested and establishes a purchase order for a not-to-exceed amount from a funding source as included in the annual budget.

The master agreement includes the same language as the City’s standard services contract and requires the consultant to provide proof of insurance and to hold the City harmless for the work performed. The agreements will be for three years with an option to extend yearly for up to two additional years.

On April 13, the City issued a request for qualifications (RFQ) for on-call architectural, landscape architectural, civil engineering, construction inspection, municipal engineering, and materials testing services to develop a list of firms to replace those with expiring master agreements. On May 14, the City received 74 submittals in response to the RFQ as summarized below:

1. Rates range from administrative to principal staff

A selection committee of staff members divided into groups of three to rank proposals by type of on-call service. Upon review, staff identified firms that would best provide the range of specialties for each on-call service. Finalists were chosen based on a number of selection criteria including fee schedule, work methodology, overall proposal quality, availability to work, familiarity with the City of Menlo Park, and previous staff experience, amongst others. Each panelist provided their top choices per this criteria. A follow up meeting was established for group consensus before finalizing the on-call list in the event of discrepancies. Staff recommends entering into agreements with the 21 firms identified on the next page. The remaining firms did not advance based on this ranking system.
Staff Report #: 20-116-CC

Entering master agreements with these firms will help advance funded capital improvement projects. In addition, master agreements will help relieve added workload from staff vacancies and assist project delivery in a timely manner. While these on-call services are meant to be comprehensive for work that is projected through the life of the agreement, it does not preclude the City from issuing project specific requests for future proposals, if desired.

**Impact on City Resources**

The authorization of these master agreements would not result in a direct expenditure of City resources. Tasks would be assigned through the master agreements to meet the needs and demands identified for each future fiscal year through the adoption of the annual budget and capital improvement program.
The contract amount for services would be identified for each project, depending on the scope of work/services, the number and type of professionals/technicians used, and the level of community engagement needed. The hourly rates for services typically range from $60 to $500 per hour, depending on the area of expertise and experience required to deliver the best products. The costs of these services are budgeted in the program or capital project for which the services are needed. No additional appropriations are being requested at this time.

**Environmental Review**

This action is not a project within the meaning of the California Environmental Quality Act (CEQA) Guidelines §§ 15378 and 15061(b)(3) as it will not result in any direct or indirect physical change in the environment.
