Re: Menlo Portal Community Amenities Proposal Evaluation

Dear Mr. Perata:

We appreciate the opportunity to submit this proposal to evaluate the community amenity proposal for the proposed Menlo Portal project (“Project”). We understand that the Project applicant has submitted a community amenities proposal consisting of a childcare facility in the ground floor of the office building in the development as well as a financial donation to the childcare operator to cover fit-out and early start-up costs.

BAE is an award-winning real estate economics and development advisory firm with a distinguished record of achievement over its 30+-year history. To expedite this proposal, we have not included general information about BAE or our staff and qualifications. An overview of BAE, our work, and our staff is available at: www.bae1.com and we can also provide more information upon request.

The following pages detail our proposed work program, schedule, and budget. We are able to work with City staff to adjust this scope of work to meet the City’s needs for this analysis. Please feel free to contact me at stephaniehagar@bae1.com or 510.326.8943 if you have any questions or would like to further discuss this proposal.

Sincerely,

Stephanie Hagar  
Associate Principal
SCOPE OF SERVICES

This section outlines BAE’s proposed work program.

Task 1: Kick-off Meeting and Review of Background Materials
BAE will conduct a phone or video conference with City staff to discuss the goals and objectives of the study, review the scope of services and schedule, and discuss data and information needs. As a part of this task, BAE will review relevant documents pertaining to community amenities proposal.

Task 2: Evaluate Community Amenities Proposal
BAE will conduct a peer review of the Project applicant’s community amenities proposal to assess the applicant’s valuation of the proposed community amenity. The peer review will evaluate the appropriateness of the applicant’s methodology for valuing the proposed community amenity, including both the conceptual basis for the valuation (e.g., construction cost, capitalized value, foregone revenues, etc.) and the specific assumptions used to determine the value. If the peer review finds that a different methodology or different assumptions are more appropriate than those provided by the applicant, BAE will assess the value of the community amenities proposals using BAE’s recommended methodology and assumptions. The analysis will quantify any difference in the dollar amount between the value of the amenity as determined by the applicant and the value as determined by BAE’s recommended methodology.

Task 3: Draft and Final Memorandum
BAE will prepare and submit an administrative draft memorandum to City staff that presents the findings from Task 2. The memorandum will detail BAE’s methodology and rationale for arriving at these findings and quantify any differences between the Project applicant’s findings and BAE’s findings related to the value of the community amenities proposal. After submitting the administrative draft, BAE will be available to discuss the draft with City staff by phone or video conference to provide an overview of the analysis and respond to questions. Following receipt of a single set of consolidated comments on the administrative draft from City staff, BAE will address all comments with City staff and make modifications to the draft memorandum as needed. BAE will then submit a final memorandum to City staff.

Optional Task 4: Public Hearings or Study Sessions
If requested by City staff, BAE will attend public hearings or study sessions to present the findings from the analysis, respond to questions, and receive comments and input. BAE will prepare presentation materials for meetings as necessary and will review all presentation materials with City staff prior to meetings to obtain input and make refinements. The budget shown below provides a per-meeting cost for BAE attendance at any public hearings or study sessions.
PROPOSED BUDGET

BAE will complete the work described above for a fixed-fee budget of $9,425, as shown in the budget provided below. This total does not include the cost of any public meetings, which could be added to the total budget as an optional task at an additional cost of $1,620 per meeting. The budget shown below will include all consultant costs, including personnel, overhead, and miscellaneous reimbursable expenses. Miscellaneous expenses such as data purchase are passed through to the client with no markup. BAE reserves the right to re-allocate budget among authorized tasks to best serve project needs; however, in no event shall the total cost exceed the fixed-fee amount, unless the City requests additional work beyond the agreed-upon scope.

Kaitie M. Meador,
Senior Planner
City of Menlo Park
701 Laurel St., 1st Floor
Menlo Park, CA 94025

Dear Ms. Meador:

We appreciate the opportunity to submit this proposal to prepare a Fiscal Impact Analysis for the proposed Menlo Portal mixed-use project at 115 Independence Drive and 104 and 110 Constitution Drive (“Project”). Our understanding is that the Project would consist of demolition of approximately 65,000 square feet of office and industrial uses to construct 335 residential units and approximately 35,000 square feet of commercial uses in the R-MU-B District of the City’s Bayfront area. The proposed commercial uses consist of 1,608 square feet of neighborhood-serving commercial uses, with the remainder of the commercial space for office use. The Project applicant plans to include 48 below-market rate (BMR) units in the Project in compliance with the City’s BMR Housing Program requirements. The Project would be required to provide community amenities in compliance with the City’s community amenities requirement for bonus-level development in the R-MU-B District. The applicant has not yet specified a proposed community amenity contribution for the Project. The City is currently in the process of reviewing the Project and is interested in understanding the likely fiscal impact that the Project will have on the City as well as the special districts that would serve the Project.

An overview of BAE, our work, and our staff is available at: www.bae1.com and we can also provide more information upon request.
The following pages detail our proposed work program, schedule, and budget. The following scope of work is based on the scope of work that BAE has conducted for several other development projects in Menlo Park. We are able to work with City staff to adjust this scope of work to meet the City’s needs for this analysis. Please feel free to contact me at stephaniehagar@bae1.com if you have any questions or would like to further discuss this proposal.

SCOPE OF SERVICES

This section outlines BAE’s proposed work program.

Task 1: Kick-off Meeting and Review of Background Materials
BAE will meet with City staff to discuss the goals and objectives of the study, review the scope of services and schedule, and discuss data and information needs. BAE will also conduct a tour of the Project site. As a part of this task, BAE will review relevant documents and plans pertaining to the proposed Project, including City staff reports, the project Environmental Impact Report (if applicable), and any recent appraisals of the Project or the Project site. BAE will also review the City budget, the Comprehensive Annual Financial Report, City fee ordinances, and other financial documents from the City and affected special districts including fire and school districts.

Task 2: Analyze Fiscal Impacts
BAE will conduct a fiscal impact analysis that will provide a detailed estimate of the Project’s net fiscal impacts to the City of Menlo Park as well as key special districts that serve the Project site. This analysis will evaluate the revenue and cost implications of the Project and up to two Project Alternatives for the City, the Menlo Park Fire Protection District, the school districts that serve the Project site, the San Mateo Community College District, the Midpeninsula Regional Open Space District, and the Sequoia Healthcare District.

BAE will estimate the General Fund revenues that the Project will generate for the City of Menlo Park on an annual basis, including property tax, sales tax, business license fees, utility user tax, franchise fees, and any other applicable revenues. BAE will also estimate the property tax revenue and other revenue sources that the Project will generate for the special districts that serve the Project site. In addition, BAE will estimate one-time revenue from the impact fees that will apply to the project.

BAE will estimate annual City of Menlo Park General Fund operating expenditures associated with providing City services to the Project, including police, public works, recreation and library services, and general government services, as well as General fund operating expenditures for special districts that provide services to the project. The cost analysis will evaluate the marginal cost of providing additional service when feasible and appropriate. As part of this process, BAE will request to hold phone consultations or with City staff in key departments and/or prepare written surveys for key departments, including the Police, Finance, Community Services, and Library Departments, to confirm methodology and assumptions as well as to assess existing service capacity and the potential impact of the proposed project. For police, BAE will work with the local department to examine the current beat structure and discuss whether this may need to be altered to serve the new development. Any new patrol officers and/or equipment would be analyzed on a marginal basis. For the school districts, BAE will estimate the cost to serve new elementary, middle, and high school students that will live in
the Project, based on each school district’s estimated student generation estimates. The analysis of expenditures will focus on annual operating expenditures rather than one-time capital expenditures.

BAE will also contact representatives from the Menlo Park Fire Protection District and the school districts that will serve the project to assess existing capacity, potential facility and equipment needs, and the potential impact of the Project. Information obtained during these interviews would supplement information that BAE will obtain from published budget documents for the Fire Protection and school districts as well as published school district enrollment projection reports and student generation estimates. BAE’s budget for this task assumes that the analysis of fiscal impacts to special districts other than the school districts and Menlo Park Fire Protection District will be based on published budgets and BAE’s property tax calculations for each special district and will not require interviews with district staff.

Fiscal impacts will be presented in current dollars on a net annual and cumulative basis over a 20-year period presented in constant 2020 dollars.

**Task 3: Prepare Fiscal Impact Report**

BAE will prepare and submit an Administrative Draft Fiscal Impact Analysis report to City staff. The report will include a concise and highly-accessible executive summary, including a summary of the methodology and key findings from Tasks 1 and 2. After submitting the Administrative Draft, BAE will hold a teleconference with City staff to provide an overview of the report and respond to questions.

Following receipt of a single set of consolidated comments on the Administrative Draft from City staff, BAE will address all comments with City staff and make modifications to the draft report as needed. BAE will then submit a draft Public Review Draft for staff to review. Staff will note any minor corrections and BAE will submit a Public Review Draft.

**Task 4: Public Hearings**

BAE will attend up to two public meetings (e.g., one Planning Commission meeting and one City Council Meeting) to present the findings from the Fiscal Impact Analysis, respond to questions, and receive comments and input. BAE will prepare presentation materials for meetings as necessary and will review all presentation materials with City staff prior to meetings to obtain input and make refinements.

**PROPOSED BUDGET**

BAE will complete the work described above for a fixed-fee budget of $25,460, as shown in the budget provided below. The budget shown below will include all consultant costs, including personnel, overhead, and miscellaneous reimbursable expenses. Miscellaneous
expenses such as data purchase and travel are passed through to the client with no markup. BAE reserves the right to re-allocate budget among authorized tasks to best serve project needs; however, in no event shall the total cost exceed the fixed-fee amount, unless the City requests additional work beyond the agreed-upon scope.

Costs for any additional work authorized by the client will be billed on an hourly time-and-materials basis, in accordance with BAE’s standard hourly billing rates:
