Project: Menlo Park Administration Generator
Hohbach-Lewin Project 11320B

Subject: Proposal for Structural Engineering Services

Dear Sam:

Thanks for giving us a call. We look forward to being of service on this project. This proposal is based on our phone discussion and the information provided on the new generator and site conditions.

The project is the installation of an emergency generator. Structural scope is the foundation and attachment of the generator to the foundation. The location proposed is adjacent to existing retaining walls, thus the weight of the generator and foundation would surcharge the existing retaining walls. This surcharge is an additional lateral force on the existing retaining wall.

We propose to visit the site to verify the height and relative location of the existing retaining walls. We will evaluate the retaining walls for the anticipated surcharge loading. If the retaining wall is not adequate for these loads the likely solution is to support the generator pad on drilled piers.

We understand the generator provides power to an essential facility, thus the generator’s attachment to the foundation would utilize a component importance factor of 1.5.

We propose to provide structural drawings and calculations for your submittal to the City of Menlo Park Building Department. We will respond to structural plan check comments.

We propose to perform the above structural engineering services on a fixed fee basis for $4,500.

During construction we will review submittals for concrete mix design and reinforcing steel. We will respond to contractor’s requests for information and perform structural observations if required.

We propose to perform our services during construction on a time and expenses basis and suggest a budget of $1,500.

We propose to base the foundation design on presumed load bearing values in the California Building Code and not based on a geotechnical report. If drilled piers are required, we assume the observation of their installation can be done by a special inspector, contracted directly with the City.

Should this proposal meet with your approval, please return a signed copy of this letter indicating your acceptance.
I look forward to working with you on this project.

Sincerely,

Hohbach-Lewin, Inc.
