MENLO PARK MAIN LIBRARY SPACE NEEDS STUDY
SCOPE OF WORK

OVERVIEW
Consultant to conduct a Space Needs Study for the Menlo Park Main Library at 800 Alma Street, Menlo Park, CA 94025. The Space Needs Study shall translate the recommendations of the Menlo Park Library Strategic Plan into flexible, efficient, and functional arrangements for the library's collections and services. While the Library Strategic Plan is based on a 5 year planning horizon, the Space Needs Study shall include sufficient inherent flexibility to allow the Library to meet community needs 15 to 20 years in the future.

The consultant will work with library stakeholders to assess the main library and identify the new, remodeled, or repurposed square footage necessary to implement the Library Strategic Plan while providing flexibility to meet future library needs. Work products will include conceptual floor plans, preliminary designs, and cost estimates.

The City desires to engage a consultant that will inspire trust, provide a strong sense of purpose and importance to the space planning process, and involve the relevant stakeholders appropriately and effectively.

LIBRARY BACKGROUND
The Menlo Park Main Library is a municipal library and is operated as a department of the City of Menlo Park. The Library is located at 800 Alma Street, Menlo Park, CA 94025. The population of Menlo Park is 33,273. In FY 13-14 there were 24,962 card holders, a total circulation of 624,669, and 301,842 Library visits. The Library has 14 FTE staff, representing 19 employees (7 full time, 12 part time) plus 36 temporary employees, with a FY 15/16 operating budget of $2.9 million.

Kingsford Jones, a Menlo Park architect, designed the original one-story ranch style building with 2 patios and a brick and redwood exterior, giving it a rustic and informal atmosphere. The one-millionth book checked out was to 4-year old Willie Farrar on February 10, 1962. The addition of a new wing in 1968 tripled its size with picture windows added for pleasant reading. Another 7,000 square feet was added in 1992, in addition to a complete remodel, resulting in the current 34,046 square foot Main Library. Menlo Park also operates a branch library on the campus of the Belle Haven Elementary School. This joint use library was opened in 1999 and occupies 3,800 square feet.

The Library is managed by the Library Director, supported by two Supervising Librarians who share the roles of managing both Main and Branch library services. Branch library activities are overseen by the Branch Manager (Supervising Librarian). The library's adult literacy program, Project Read, is housed in the Main Library and uses space in the branch library as well.

The Main Library is open 7 days a week for a total of 59 hours per week and the Belle Haven Library is open 5 days a week for a total of 32 hours per week.

The Library has active community support organizations, including the Menlo Park Library Commission, Menlo Park Library Foundation, Friends of the Menlo Park Library and Project Read-Menlo Park Literacy Partners.

SCOPE OF WORK

EXHIBIT A-1 CONTINUED

The Library is a member of the local cooperative library system, a San Mateo County-wide consortium of public and community college libraries sharing an automation system (Sierra) and daily delivery of materials among the 35 participants as well as a robust selection of e-materials and services.

LIBRARY STRATEGIC PLAN

The Space Needs Study will be based on the recommendations contained in the Menlo Park Library Strategic Plan. The Library Strategic Plan examined the community’s growth patterns and demographics and identified service needs with respect to future trends and technologies. The Library Strategic Plan represents a comprehensive overview of library service goals, objectives, and activities that will require new, remodeled, or repurposed library building square footage over the next 5 years.

The anticipated completion date for the Library Strategic Plan is July 2016, the results of which will be provided to the consultant for use in developing the Space Needs Study. Preliminary Library Strategic Plan recommendations include:

- Flexible spaces to meet future, as yet unidentified, service needs beyond the 5 year planning horizon of the Library Strategic Plan
- Flexible shelving
- Flexible internet connectivity for staff and the public
- A space which exemplifies the library as a community gathering place
- Rooms for different size groups to meet, study, and work collaboratively
- A children’s story time room on the main floor
- Stroller parking spaces on the main floor
- A defined teen area
- More staff office space and conference rooms
- More storage space
- Additional restrooms
- After hours meeting rooms with external access
- Better utilization of space in the basement
- Bring natural light into the basement
- Better utilization of the library patio and other open spaces
- Interior and exterior performance spaces for story times and theatrical and musical performances
SCOPE OF WORK

The following Scope of Work is considered to be the minimum level of effort required. The Consultant is encouraged to recommend changes to the Scope of Work that will lead to a more successful project.

Existing Facility

1. Review existing library documentation including the Menlo Park Library Strategic Plan and available building plans (hard copies of the building plans will be provided).
2. Assess the existing library in terms of size, ADA compliance, functional layout, flexibility, and expansion capability.
3. Gain an understanding of any significant architectural and engineering obstacles, i.e. bearing walls, that may impeded the goal of providing a flexible space.
4. Gain an understanding of any limitations to the Library expansion imposed by adjacent uses.
5. Create an existing floor plan in AutoCAD format based upon field investigations and the provided building plans. The floor plan shall serve as a base for the space planning effort.

Space Planning

6. Translate the recommendations of the Menlo Park Library Strategic Plan into flexible, efficient and functional arrangements for the library's collections and services. The space plan shall include sufficient inherent flexibility to allow the Library to meet as yet unidentified service needs 15 to 20 years in the future.
7. The Space Needs Study shall be developed through meetings and coordination with City Staff, the Menlo Park Library Foundation and the Menlo Park Library Commission. The Consultant shall present the results of the Space Needs Study to the Library Foundation, the Library Commission, and the City Council.
8. Taking into account the impact of technology and architectural, engineering, and adjacency obstacles, identify new, remodeled, or repurposed square footage necessary to implement the Library Strategic Plan and provide flexibility to meet future library needs.
9. Develop preliminary conceptual designs for the renovated library. Preliminary conceptual designs will show all interior rooms, with shelving and furniture layout. Provide and evaluate alternative approaches.
10. Break out square footage assignments by use or service.
11. Analyze whether the existing building and site can be remodeled or expanded to meet the goals of the Space Needs Study or if a new structure is necessary. Discuss the pros and cons of investing in the existing library versus building a new facility.
12. If the existing library is deemed inadequate to meet current and future service needs, develop a conceptual design for a new library at the existing site.

Cost Estimates

13. Provide preliminary cost estimates for each proposed alternative.

14. If the existing library is deemed inadequate to meet current and future service needs, provide a preliminary cost estimate for a new library at the existing site.

15. Break out costs by use or service.

16. Cost estimates shall be based on recent project bid figures from similar projects and national estimating guides using local cost adjustment factors.

17. Provide a comprehensive bound Space Needs Study report that includes the findings from the above tasks. In addition to the hard copy report, provide the report in MS Word/MS Excel and PDF formats.
