A. The California High-Speed Rail Authority (Authority) is responsible for the planning, design, construction, and operation of the first high-speed rail system in the nation (Project). The California high-speed rail system will connect the mega-regions of the State, contribute to economic development and a cleaner environment, create jobs, and preserve agricultural and protected lands. By 2029, high-speed rail will run from San Francisco to the Los Angeles basin in under three hours at speeds of over 200 miles per hour. The system will eventually extend to Sacramento and San Diego, totaling 800 miles with up to 24 stations. In addition, the Authority is working with regional partners to implement a statewide rail modernization plan that will invest billions of dollars in local and regional rail lines to meet the State’s 21st century transportation needs.

B. This Agreement (Agreement) is between the Authority, an agency of the State of California, and the City of Menlo Park (City), a California Municipal Corporation.

C. To facilitate the construction of the high-speed rail system, the Authority requires City to perform the work as described in Section 2 of this Exhibit (Work).
