FUNDING BENCHMARKS

As of July 1, 2017

JPB IS NOT PROVIDING SUBSIDY FUNDING. HOWEVER, BENCHMARK TARGETS BELOW ARE STRONGLY ENCOURAGED.

Following are funding benchmarks that will be evaluated for the Shuttle Service to remain eligible for continued grant funding. Benchmarks that are not met may result, in the JPB’s sole discretion, in the elimination of funding. Due to the competitive grant process, a Shuttle Service meeting the following benchmarks is not guaranteed to receive continued funding:

1. **BAAQMD Cost Effectiveness** ("CE"): As determined by BAAQMD evaluation criteria, the Shuttle Service shall remain competitive by receiving a CE score no greater than $200,000 per ton of emissions reduced, based on a minimum application funding request of $25,000. Should the BAAQMD revise the maximum CE value during the term of this agreement, the service shall not exceed the revised CE value;

2. **Cost per Passenger**: The Shuttle Service shall generate a Cost Per Passenger productivity efficiency that is less than or equal to $4.00 per passenger, as determined by the JPB;

3. **Riders per Service Hour**: The Shuttle Service shall generate a Riders per Service Hour productivity efficiency that is equal to or greater than 10 riders per service hour, as determine by the JPB;

4. **Ridership Improvement**: The Shuttle Service shall generate a minimum two percent (2%) Year-To-Year ridership improvement over the prior funding period.
