REFINISH GYM FLOOR

Scope of work:

Prepare floor by dulling old finish using a SPP pad, driven by a floor machine, in a solution of neutral cleaner and water. Vacuum this dry, rinse and vacuum dry again. Touch-up dark colors only. Light colors will not match. Apply two coats of Advantage Coatings Defense Waterbase Finish.

Work can be scheduled during last 2 weeks in December. Please allow two days to complete job and allow a minimum of 24 hours to a maximum of one week to cure the finish. The floor may be walked on after 24 hours, but the floor is susceptible to scuffing or marring prior to completion of the curing time. //72 hours is a good average cure time. Do not replace athletic or walk-off mats until finish is fully cured. Do not clean with water or detergent during the first week.

For the sum of.....$ 3,900.00

All wages paid are prevailing rate.

Onetta Harris refinish 6580

Please note this method of refinishing will not remove scratches, scuff marks under the finish, peeling finish or dirt 'ground' into the grain of the wood, only drum sanding will remove that. My finish is only as strong as the finish under it. Please note paint touch-ups will show a large difference in color. Never use tape on floor, it will pull the finish off.
