D. If, after notice of termination for failure to fulfill agreement obligations, it is determined that FIRST PARTY had not so failed, the termination shall be deemed to have been effected for the convenience of the CITY. In such event, adjustment in the contract price shall be made as provided in Paragraph B of this Section.

B. The CITY reserves the right to waive any and all breaches of this agreement, and any such waiver shall not be deemed a waiver of any previous or subsequent breaches. In the event the CITY chooses to waive a particular breach of this agreement, it may condition same on payment by FIRST PARTY of actual damages occasioned by such breach of agreement.

20. SEVERABILITY

The provisions of this agreement are severable. If any portion of this agreement is held invalid by a court of competent jurisdiction, the remainder of the agreement shall remain in full force and effect unless amended or modified by the mutual consent of the parties.

SUBJECT:  Proposal for Engineering Services – Preparation of a Water Supply Assessment for the Proposed 1350 Adams Court Project

Dear Azalea:

As requested, the following is West Yost Associates’ (West Yost) proposed Scope of Work to provide Menlo Park Municipal Water (MPMW) with engineering services related to the preparation of a Water Supply Assessment (WSA) for the proposed 1350 Adams Court Project (Proposed Project) located in Menlo Park, California, and within MPMW’s service area.

PROJECT UNDERSTANDING

The Proposed Project is located at 1350 Adams Court in the Bayfront Area of MPMW’s service area and consists of a new five-story, approximately 260,000 square foot research and development (R&D) building. The proposed building would be located on a portion of the existing property that is currently undeveloped and therefore, would result in an increase of 260,000 square feet of building space. The Proposed Project site currently has a R&D building of approximately 188,000 square feet and therefore, the total gross floor area at the site would be approximately 448,000 square feet after implementation of the Proposed Project. The Proposed Project would also update the site landscaping around the proposed building.

California Senate Bill 610 (SB 610) amended state law, effective January 1, 2002, to improve the link between information on water supply availability and certain land use decisions made by cities and counties. SB 610 sought to promote more collaborative planning between local water suppliers and cities and counties, requiring detailed information regarding water availability to be provided to the city and county decision-makers prior to approval of specified large development projects. The purpose of this coordination is to ensure that prudent water supply planning has been conducted and that planned water supplies are adequate to meet existing demands, anticipated demands from approved projects and tentative maps, and the demands of proposed projects.
Ms. Azalea A. Mitch  
March 8, 2018  
Page 2

SB 610 amended California Water Code sections 10910 through 10915 (inclusive) to require land use lead agencies to:

- Identify any public water purveyor that may supply water for a proposed development project; and
- Request a WSA from the identified water purveyor.

The purpose of the WSA is to demonstrate the sufficiency of the purveyor’s water supplies to satisfy the water demands of the proposed project, while still meeting the water purveyor’s existing and planned future uses. Water Code sections 10910 through 10915 delineate the specific information that must be included in the WSA.

The Proposed Project will be served by MPMW’s existing potable water system. Based on the description of the Proposed Project, a WSA will be required in compliance with the requirements of SB 610.

Our proposed Scope of Work to prepare the WSA is described below.

**SCOPE OF WORK**

**Task 1. Evaluate Potable Water Demands for Buildout of the Proposed Project**

MPMW evaluated future water demands for future planned development in the Bayfront Area, including the Proposed Project site, in a 2016 Water Supply Evaluation (2016 WSE) prepared for ConnectMenlo, which updated the City’s General Plan land use and circulation elements. These future water demands were accounted for in MPMW’s 2015 Urban Water Management Plan (2015 UWMP). In this task, West Yost will review the current development plans for the Proposed Project and calculate potable water demands for the Proposed Project, and compare those with water demands previously calculated in the 2016 WSE and included in MPMW’s 2015 UWMP.

**Task 1-1. Review Available Data**

Under this task, West Yost will review available data on the Proposed Project, including the number and type of proposed commercial buildings, square footages of non-residential buildings, number of stories, anticipated occupancy, anticipated landscape area, recycled water use areas, etc.

**Task 1-2. Calculate Water Demands for Proposed Project**

Based on the information collected and reviewed in Task 1-1, West Yost will calculate the potable water demands for buildout of the Proposed Project. Previous water demand projections prepared for MPMW’s Water System Master Plan (WSMP) will be reviewed to assess any changes in the projected demands within the Water Analysis Zone in which the Proposed Project is located.

West Yost will also coordinate with the City and Project Proponents to understand any water conservation measures to be incorporated into the Proposed Project, including water efficient fixtures and landscaping which may reduce potable water use at the Proposed Project site, and/or any plans for on-site treatment and reuse of wastewater which may result in potable water demand
Ms. Azalea A. Mitch

offsets. MPMW does not currently supply non-potable (recycled water), and no non-potable water demand projections are included in MPMW’s 2015 UWMP. As such, no non-potable (recycled water) demands for the Proposed Project will be assumed to be met by MPMW (except those met through on-site treatment and reuse of wastewater).

The calculated potable water demands for the Proposed Project site will be compared with those calculated for the 2016 WSE and included in MPMW’s 2015 UWMP.

**Work Products:** West Yost will submit preliminary potable water calculations for the Proposed Project to MPMW for review and comment prior to proceeding with Task 2. West Yost has budgeted one (1) meeting with MPMW staff to discuss comments on both the preliminary potable water demands.

**Task 2. Prepare Water Supply Assessment**

West Yost will prepare a WSA for the Proposed Project in accordance with the requirements of SB 610 (as adopted in the California Water Code as Sections 10910-10915). The WSA will be based on information provided by MPMW and Project Proponents.

Projected potable water demands for the Proposed Project will be based on those calculated in Task 1. The existing and future water supply quantities and supply reliability will be as documented in MPMW’s 2015 UWMP.

The WSA will include the following:

1. A description of the Proposed Project, including location, overall area, number of parcels, type of proposed development, and proposed phasing, if applicable;
2. An estimation of the total water demand associated with buildout of the Proposed Project (no phasing will be evaluated in the WSA);
3. A description of MPMW’s current and future water supply and demand conditions, including supply entitlement and contractual amounts, supply reliability under varying hydrologic condition, and existing and anticipated future water demands;
4. A description of determinations as required by SB 610, including:
   a) If the Proposed Project is subject to the requirements of the California Environmental Quality Act (CEQA),
   b) If the Proposed Project meets the SB 610 definition of a Project,
   c) Identification of MPMW as the responsible water system, and
   d) If MPMW’s 2015 UWMP includes the water demands for the Proposed Project.
5. A water supply assessment for the Proposed Project including the following:
   a) Identification of existing water supplies for the Proposed Project and demonstration that said supplies exist,
   b) If inadequate supplies exist, identification and evaluation of options to meet water supply deficit,
c) Evaluation of the sufficiency and reliability of the proposed supply for the Proposed Project,

d) Identification of any potential conflicts that may arise from the exercise of water supply entitlements required for the Proposed Project, and

e) Proposed use and sufficiency of groundwater supplies (based on existing available data and studies).

6. A determination of sufficiency of existing and future supply for the Proposed Project in accordance with the requirements of SB 610.

Work Products: Three (3) hard copies of the Draft WSA Report, as well as one electronic copy (in PDF format), will be submitted to MPMW for review and comment. West Yost will attend one (1) review meeting to discuss comments on the Draft WSA Report. Following receipt of comments on the Draft WSA Report, West Yost will prepare and submit three (3) hard copies and one PDF copy of the Final WSA Report.

Task 3. Project Management, Meetings and Coordination

West Yost will keep MPMW staff informed as to progress on the above tasks via regularly scheduled conference calls. During the conference calls, West Yost will report on progress for on-going tasks and discuss any issues being encountered.

As described in the tasks above, West Yost also anticipates in-person meetings with MPMW and Project Proponents at key milestones of this Project. Meetings at the following milestones are anticipated and included in this Scope of Work:

- One (1) project kickoff meeting to discuss the approach for the preparation of the WSA (assumes one kickoff meeting for Proposed Project combined with kickoff meeting for WSAs for two adjacent projects (Commonwealth Corporate Center Project and Facebook Willow Village Project);
- One (1) meeting at the completion of Task 1 to discuss the potable water demand calculations for the Proposed Project;
- One (1) meeting at the completion of Task 2 to discuss any questions or comments on the Draft WSA for the Proposed Project; and
- Attendance at the City of Menlo Park Council Meeting when the Final WSA is considered for adoption to be available to respond to any questions that may arise.

Additional meetings beyond those described above are not included in this Scope of Work, but could be added with an approval and associated budget augmentation by MPMW.

BUDGET

West Yost will perform the basic Scope of Work described above on a time-and-materials basis for a not-to-exceed budget of $29,100. The estimated level of effort and costs associated with performing the basic Scope of Work described above are summarized in Table 1.

The budget presented in Table 1 above assumes that West Yost will be preparing the WSA for the Proposed Project (1350 Adams Court) in parallel with West Yost's preparation of separate WSAs for two adjacent projects (Commonwealth Corporate Center Project and Facebook Willow Village Project). Preparation of all three WSAs in parallel does result in a reduced cost for each WSA due to a shared cost of common elements that will need to be included in each WSA. As such, additional budget may be required if one or both of the other WSAs does not move forward.

West Yost will perform all work on a time and materials basis at our 2018 Billing Rate Schedule (attached), and will not exceed the estimated cost without written authorization. If additional work is identified that is not included in this scope of work, we will perform additional work only after receipt of MPMW's written authorization.

**SCHEDULE**

West Yost will commence work on this Project immediately upon receiving Notice to Proceed from MPMW. West Yost understands that MPMW would like to complete the Final WSA within 90 days of the Notice to Proceed. Based on this schedule, The Draft WSA will be completed within eight (8) weeks of the Notice to Proceed, assuming that required information on the Proposed Project is received in a timely manner. The Final WSA will be completed within two (2) weeks after receiving comments on the Draft WSA.

We look forward to assisting MPMW with this important project. Please do not hesitate to call me if you have any questions or need additional information.

Sincerely,
WEST YOST ASSOCIATES
