   Building Type and Code Classification will vary with each site and will be part of the analysis.

C. Sustainable Goals
   To be determined.

D. Budget
   Construction and Total Project Budget: To be determined.

E. Schedule:
   Preliminary Schedule:
   Pre-design and Site Selection: July – August 2019
   Conceptual Design: September – October 2019
   Cost Estimation: November 2019
   Recommendations: December 2019 – January 2020

F. Assumptions and Owner / Client Documentation:
   None.

I. PRE-DESIGN AND SITE ANALYSIS [July – August 2019]

A. Project Kick-off
   We will start off with a Kick-Off Meeting in which we will meet with the leadership from the Library and the
   City and define the project goals, parameters for the work, decision making process, community outreach
   process, and project deliverables.

B. Site Analysis
   Site Research, focusing on city-owned parcels in the Bell Haven neighborhood, to explore a range of
   potential options. Our research process may include reaching out to existing property owners and other
   institutions to determine the feasibility of an option. We will work closely with staff and the other
   stakeholders as we perform this research, and keep the investigation focused on the alternatives most
   likely to succeed.
We will use the Library Program we developed in the last phase of the process as the basis of our planning. We already have a program for what functions will be in the building, plus the square footage necessary, and will develop other site criteria such as parking demand, need for outdoor spaces, and other parameters we can use to evaluate potential sites. For each potential site we will overlay the program criteria and make an initial assessment as to the suitability of a site for further consideration. After eliminating properties that can’t meet the basic criteria, we will develop a ranking system for each site with an assessment of its suitability and a list of opportunities and constraints for consideration by City staff, and then the public.

C. Public Engagement

The public engagement process will be critical to the success of this work. Based upon our previous community outreach efforts with this community, we have developed a good understanding of what the community values, who the key participants are and what drives each of them, and what the key issues are that will need to be addressed. The RFP notes that we are to utilize the ILG’s TIERS Public Engagement Framework, which we have familiarized ourselves with, and are happy to use as a framework. As with any public engagement process, any approach needs to be thoughtfully tailored to the specific community, so we will develop the detailed community engagement approach and methodology in close collaboration with City staff, so we have the best chance of success.

D. Meetings

Kickoff Meeting
Staff Coordination meetings (4)
Stakeholder Focus Group Meetings (2)
Community Meetings (3)

E. Deliverables

Site Development Program
Initial analysis of a range of site alternatives
Focused analysis of selected alternatives

II. CONCEPTUAL DESIGN [September – October 2019]

A. Conceptual Design Alternatives

Based upon the results of the community feedback and internal team discussions and evaluations, we will further develop a certain number of the selected conceptual design alternative. How many is to be determined, but there would be at least three, possibly as many as six or eight if there seemed to be that many viable alternatives worth considering.

B. Meetings:

Staff Coordination meetings (4)
Stakeholder Focus Group Meetings (2)
C. **Deliverables For Each Alternative (3-6):**

After incorporating all feedback, we will present our recommendation to the City Council at a public meeting. Prior to that, or possibly after, we propose to conduct a final community meeting to explain the decisions made and help the community visualize the path forward.
