Once a GIS Support Block is put in place, GISinc will provide professional services to assist City of Menlo Park, CA with GIS support. All services provided as part of the GIS Support Blocks will be conducted by the most effective and cost-efficient method, including: virtually through remote network access, telephone conference calls, Internet (WebEx) demonstrations, or on-site consultants.

How do GIS Support Blocks work?

If a support task becomes large, GISinc may require using a management team. This function includes people, processes, and technology that are designed to make sure that City of Menlo Park, CA receives outstanding value. Milestones and completion dates will be established for the Planning and Analysis, Client review, Design, Client review, Development, Testing, and Installation/Implementation phases of a large task or project. There are many tasks and risks that have the potential to derail a project.
