Bids are required for the entire work. The amount of the bid for comparison purposes will be the total of all items. The total of unit basis items will be determined by extension of the item price bid on the basis of the estimated quantity set forth for the item.

The Bidder shall set forth for each item of work, in clearly legible figures, an item price and a total for the item in the respective spaces provided for this purpose. In the case of unit basis items, the amount set forth under the "Total" column shall be the extension of the item price bid on the basis of the estimated quantity for the item.

In case of discrepancy between an item price and total set forth for the item, the item price shall prevail, provided however, if the amount set forth as an item price is ambiguous, unintelligible or uncertain for any cause, or is omitted, or in the case of unit basis items, is the same amount as the entry in the "Total" column, then the amount set forth in the "Total" column for the item shall prevail in accordance with the following:

PAY ITEM PRICE SCHEDULE

The Bidder shall set forth for each quantified item of work a unit price and a total for the item, and for each lump sum item a total for the item, all in clearly legible figures in the respective spaces provided for this purpose. Failure to provide the required information, or if information provided is subsequently proved false, the Proposal shall be considered as non-responsive and shall be grounds for rejection of the bid.

In case of conflict between an item price in words and the price in figures, the price in words shall prevail. In case of discrepancy between an item unit price and the total set forth for a unit basis item, the item unit price shall prevail. However, if the amount set forth as an item unit price is ambiguous, illegible or uncertain for any cause, or is omitted, or is the same amount as the entry in the "Total" column, then the amount set forth in the "Total" column for the item shall prevail and shall be divided by the estimated quantity for the item, and the price thus obtained shall be the item unit price.
