MENLO PARK GENERAL PLAN UPDATE
COMMUNITY PROGRAMS AND CITY PROJECTS
IN THE M-2 AREA AND BELLE HAVEN

1. Community-serving Retail
   ___A. Grocery store
   A full-service grocery store providing a range of goods, including fresh fruits, vegetables and meat and dairy products
   ___B. Pharmacy
   A full-service pharmacy that fills prescriptions and offers convenience goods
   ___C. Restaurants
   A range of dining options, from cafes to sit-down restaurants, serving residents and local employees
   ___D. Bank/ATM
   A bank or credit union branch with an ATM

2. Social Service Improvements
   ___A. Education improvements in Belle Haven
   Improvements to the quality of student education and experience in Belle Haven
   ___B. Library improvements at Belle Haven
   Expand library programs and activities, especially for children
   ___C. Senior service improvements
   Increase the senior services at the Senior Center to include more aides and programs
   ___D. Medical center
   Medical center providing health care services and outpatient care
   ___E. Pool House remodel in Belle Haven
   Remodel pool for year-round use with new heating and changing areas
   ___F. Add restroom at Onetta Harris Community Center
   Additional restroom at the community center

3. Jobs and Training at M-2 Area Companies
   ___A. Job opportunities for residents
   Local employers have a hiring preference for qualified residents
   ___B. Job training programs and education center
   Provide residents with job training programs that prepare them with competitive skills
   ___C. Paid internships and scholarships for young adults
   Provide internships at local companies and scholarships to local youth to become trained for tech jobs
   ___D. Education and enrichment programs for young adults
   Provide programs that target students and young adults to be competitive in the job market, including existing tech jobs

4. Energy, Technology, and Utilities Infrastructure
    ___A.   Underground power lines
            Remove overhead power lines and install them underground along certain roads
    ___B.   Incentives for private home energy upgrades, renewable energy, and water conservation
            Offer financial assistance or other incentives to help area residents pay for energy-efficient and water conserving home improvements
    ___C.   Telecommunications investment
            Improve the area's access to wifi, broadband, and other new technologies
    ___D.   Soundwalls adjacent to Highway 101
            Construct soundwalls between Highway 101 and Kelly Park to reduce sound

5. Transit and Transportation Improvements
    ___A.   Dumbarton Rail
            Utilize the right-of-way for new transit line between Redwood City and Menlo Park in the near term with stations and a new bike/pedestrian path
    ___B.   Sidewalks, lighting, and landscaping
            Enhanced landscaping and lighting and fill gaps in sidewalk to improve the overall walkability
    ___C.   Bike trails, paths or lanes
            Install new bike lanes and pedestrian paths and connect them to existing facilities and BayTrail
    ___D.   Bus service and amenities
            Increase the number of bus stops, bus frequency and shuttles, and bus shelters
    ___E.   Traffic-calming on neighborhood streets
            Address cut-through traffic with design features
    ___F.   Innovative transportation solutions (i.e. personal rapid transit)
            Invest in new technology like pod cars and transit that uses separate tracks

6. Healthy Living Improvements
    ___A.   Bedwell Bayfront Park improvements
            Improve access to the park and trails within it
    ___B.   Dog park
            Provide a dedicated, enclosed place where dogs can run free
    ___C.   Tree planting
            Plant trees along streets and parks to increase tree canopy
    ___D.   Community garden(s)
            Expand space for community to plant their own produce and flower gardens

7. **Rank the Categories**
    ___A.   Community-serving Retail
    ___B.   Social Service Improvements
    ___C.   Jobs and Training at M-2 Area Companies
    ___D.   Energy, Technology & Utilities Infrastructure
    ___E.   Transit & Transportation Improvements
    ___F.   Healthy Living Improvements
